Outline of Niihama SDGs Art Festival

Components of our Art Festival

1. The exhibit of publicly sourced artwork
   During the period of the exhibit, all submitted works will be displayed at the gallery in the Niihama City Museum of Art (Akagane Museum).

2. Relevant Events
   Various events, such as workshops and panel exhibits, are planned to be implemented to link the works to the SDGs ideals.

Purposes

1. Through the process of creating works, including the understanding of SDGs, imagination and expression, we seek to raise children’s in-depth understanding of efforts for the realization of a sustainable society while enjoying art.

2. Encouraging art activities to raise awareness of SDGs ideals, not only in children, but also in a wider range of people.

3. To deepen and improve ESD (Education for Sustainable Development) beyond Niihama City and make advanced efforts to foster city-wide momentum toward the achievement of SDGs.
