<b>Objective(s)</b> (交流目的)	Japanese high school students and Korean high school students create friendship through cultural exchanges. They also share social challenges, discuss the solutions to them, and share the action vision to create a better future society together.
<b>Details</b> (交流内容)	Students interested in the program conduct cultural exchange individually via online tools, such as SNS, emails, video calls out of class. (July-) Korean high school students join the international conference hosted by Chigusa High-school online, and they make presentations and have a discussion. (December 21 <sup>st</sup> )
<b>Results</b> (交流の成果)	73 Korean high school students and 28 Chigusa high school students joined the individual cultural exchanges online and created friendship. 4 students from Hyoyang High-school and 5 students from Pungsaeng High-school participated in the international conference, and shared social challenges and declared the action vision aiming at their radical resolution. They learned the importance of continuing dialogue across the borders.
<b>Challenges and how they were overcome</b> (交流にあたり困難だったこと、克服した方法)	It took lots of time and effort to communicate with the participating schools. It was hard to do it online, mainly by email alone. We managed to have an online connection test one or two weeks before the conference, where we checked the flow of the conference and clarified the questions from the participating schools. That helped the conference go well.
<b>Future plans and visions</b> (今後の予定・展望)	We will find a way to continue our exchanges with less time and efforts required for us, teachers.
