Results (交流の成果)	<p>We have been a member of ASPnet Schools for 14 years, and promote educational activities putting ESD in the center of school education.</p> <p>Looking to the near future of 2050, we aim to nurture our students to be the torchbearers of their generation to create a better future. Putting up the educational goal of human development based on the 4 pillars of learning Shinden version; “Learning to know”, “Learning to do”, “Learning to live together”, and “Learning to be”, we provide learning linking ESD (SDGs) to all subjects and educational activities.</p> <p>In the interschool exchange with Shinyongsan Elementary School in Korea, students could feel “being connected” by having opportunities to communicate in English.</p> <p>Students could also realize the importance of “working together” and “taking things as one’s own problem” when sharing issues on the theme of global environment.</p>
Challenges and how they were overcome (交流にあたり困難だったこと、克服した方法)	<p>It is difficult to secure the period for exchange because the school calendars and educational curricula are different.</p> <p>We could not make contact smoothly.</p> <p>We set up more than one contact to share information</p> <p>We call each other if necessary.</p>

Future plans and visions
