Objective(s)	• Enhancing Multicultural Understanding • Fostering Communication Skills in English • Building Friendships and Networks

Details	• Online Teacher coordinating meetings: Getting to know about each other and the schools, and organizing exchange plans. • Video Messages: Exchanging videos introducing the students and their schools in English • Real-time online exchange: Using Zoom
Results	• Video Messages: Through introducing themselves or their schools, the students tried to think of better ways to communicate what they wanted to say in English. • Real-time online exchange: Using breakout rooms on Zoom, the students experienced talking in English individually, or in small groups. They used not only English, but a little Korean in order to show consideration for each other through communication.
Challenges and how they were overcome	It was challenging to set a date for a real-time exchange due to the busy schedules of both schools. But we managed to schedule after our exams, and asked some volunteers to join the event.
Future plans and visions	We wish to continue our exchanges in any form, including video messages and online meetings.
