

VOLCANO

THE MOST EXCITING BOOK ON VOLCANOES FOR KIDS FROM 9-12 YEARS Old
WRITTEN BY AREND VAN DAM AND ...YOU?

DID YOU EVER VISIT A VOLCANO? DO YOU LIVE NEAR ONE? ARE YOU INTERESTED IN THE SECRETS OF VOLCANISM? DO YOU WANT TO SHARE YOUR KNOWLEDGE? PLEASE JOIN US!

[This is Fagradalsfjall in Iceland. When Arend visited it, it was asleep.]

A writer, isn't that someone who does his work in complete seclusion, in a stuffy attic room? In my opinion, this image is incorrect. I like to travel. And while traveling I write. This can be on a terrace, in a museum or in a library. Now I wonder: why should I write that alone? Is there a way children can contribute? I'd like to try that out.

For my next book – about volcanoes – I enlist the help of children. This requires the mediation of enthusiastic masters and teachers. They were asked to put the children to work and to send their stories via the school account to: arend@arendvandam.nl

I will add the class on the mailing list and occasionally ask a question. For example: have you ever been on a volcano? Would you like to write a report on that? How Dangerous Are Volcanoes Really? Would you like to research that and write an informative piece? Is it true that there is a dead volcano somewhere under Dutch soil? Would you like to interview a volcanologist? Perhaps your story/report/interview will end up in the book and you will receive a free copy. Children from all over the world participate. You too? The project runs from October 1, 2021 to January 1, 2022.
