Toolkit for ASPnet members

NEW PUBLICATION SHARING

- Looking for methodological guidance and inspiration to develop your projects? Read UNESCO ASPnet's newly published [Toolkit for ASPnet members](#), now available in English, French and Spanish. The Toolkit provides links to ASPnet-related materials published by - or in collaboration with – ASPnet members. It is divided into the three thematic areas of work of the Network: Global Citizenship Education, Education for Sustainable Development, Intercultural and heritage learning. It is intended to help ASPnet National Coordinators design and support activities to be implemented by their national network member institutions.
- It can also be useful for ASPnet teachers, school personnel, students, or anybody willing to learn about the Network and how to implement UNESCO's values in the field of education.
- The documents include guides to support local and international action, lesson plans, activities, examples of innovative practices, student guides, and more.

Celebrating Call to Earth Day 2025 – Partnership with CNN

INVITATION

- UNESCO and CNN invite ASPnet schools to join **Call to Earth Day 2025**. CNN's Call to Earth Day 2025 embraces the powerful theme "Guard Your Green Space," urging individuals, communities and nations to take bold, collective action to protect the natural world that sustains us.
- ASPnet schools are encouraged to take action by caring for the green spaces around them, whether through a clean-up, planting trees or native plants, or raising awareness about the value of parks, forests, wetlands, and gardens. Every action, big or small, contributes to a healthier planet.
- Please register via [Join us for Call to Earth Day on November 6, 2025, and Guard Your Green Space | CNN](#). Thank you for being part of this global movement to protect our green spaces.
